GROUP, LABEL, and PRIORITIZE CORE VALUES (part 2):

1. Group similar words together by column to narrow your list down to the 5-7 themes which best describe what you are passionate about.
2. Choose one word within each grouping (or select your own word) that best represents the groups of similar words. Write that word at the top of the column.
3. Finally, prioritize the values by taking 2 at a time and asking yourself: If I can only satisfy one of these values, which would I choose? Assign a priority level to each value.
